EXPERIENCE

Freelancing

I have been working remotely for more than an year and below is some of my work experience:

- I have developed SMS Sale Website for one of my client where he can buy SMS from Twilio or Plivo and sale to users on his website.
- Web scraping bot which make use of puppeteer to scrap data in pdf from a site by automatically filling the form.
- Wedding Plan Management System Project.
- Whatsapp Bot using official meta APIs and non-official whatsapp api such as whatsapp-web.js and wppconnect.
- A complete Blog Project in Express Js, MongoDB and Bootstrap.
- I have worked on a Bus Ticket Management Website Project.
- Web application deployment to Azure and AWS. I have deployed web apps to various Linux Dist. such as Ubuntu, Debian, Fedora. Hands on experience with Cpanel, Apache and Nginx servers, WAMP, NodeJs server and Heroku.
- Recently, I have been working on MERN stack and have developed full stack apps in MERN.
